

Kit

99 RM

Recommended Uses: Grain

Management Recommendations

Planting	Plant on any acre you have. This is a consistent, high-performing hybrid. Plant 2.5" deep at standard populations for the area.
Early Season	Fast emergence with strong early vigor. Do not use nicosulfuron products past the 3-leaf stage.
Mid-Season	A bit shorter hybrid for those concerned about too much plant material at the end of the season. Flowers a bit early for maturity and has a long grainfill period.
Late Season	Has 2-eared tendency if conditions are favorable. Some tillers in gaps.
Harvest	Excellent standability. Will wait for the combine.

Placement Recommendations

Heavy Soils	9 Excellent
Medium Soils	9 Excellent
Light Soils	9 Excellent
Poorly Drained	9 Excellent
Dryland Performance	9 Excellent
Irrigated Performance	9 Excellent
Corn after Corn	8 Very Good
Late Planting	8 Very Good
High Population	8 Very Good
Low Population	8 Very Good
Foliar Fungicide Response	2 Minimal
Northern Corn Leaf Blight	7 Good
Gray Leaf Spot	7 Good
Common Rust	7 Good
Goss's Wilt	9 Excellent
Anthraxnose Stalk Rot	7 Good
Tar Spot	Data Not Available

Kit puts durability and yield together!

Characteristics

Flowering for Maturity	Early	Cold Tolerance	9 Excellent
Grainfill Period	Long	Heat Tolerance	9 Excellent
Plant Height (in)	94	Drought Tolerance	8 Excellent
Ear Height (in)	34	Native Insect Tolerance	8 Excellent
Ear Flex	Some	Greensnap	8 Very Good
Ear Length (in)		Root Quality	9 Excellent
Ear Girth		Stalk Quality	9 Excellent
Kernel Rows		Fall Appearance	8 Very Good
Cob Color	Red	Staygreen	9 Excellent
Husk Cover		Drydown	6 Above Average
Emergence/Early Vigor	8 Very Good	Testweight	7 Good
