

Management Recommendations

Planting	Plant on any acre you have. This is a consistent, high-performing hybrid. Plant 2.5" deep at standard populations for the area. Handles cool, wet soil well.
Early Season	Fast emergence with strong early vigor. Do not use nicosulfuron products past the 3-leaf stage. Can make a variable field look more uniform.
Mid-Season	A bit shorter hybrid for those concerned about too much plant material at the end of the season. Flowers early for maturity and has a long grainfill period.
Late Season	Has 2-eared tendency if conditions are favorable. May tiller in gaps.
Harvest	Excellent standability. Will wait for the combine.

Placement Recommendations

Clay Soils	9 Excellent
Loamy Soils	9 Excellent
Sandy Soils	8 Very Good
Poorly Drained	9 Excellent
Dryland Performance	8 Very Good
Irrigated Performance	9 Excellent
Corn after Corn	8 Very Good
Late Planting	7 Good
High Population	8 Very Good
Low Population	8 Very Good
Foliar Fungicide	8 Rarely Needed
NCLB	7 Good
Gray Leaf Spot	7 Good
Common Rust	7 Good
Goss's Wilt	9 Excellent
Anthraco-nose Stalk Rot	7 Good
Tar Spot	Data Not Available

Kit puts durability and yield together!

Characteristics

Flowering for Maturity	Early	Cold Tolerance	9 Excellent
Grainfill Period	Long	Heat Tolerance	9 Excellent
Plant Height (in)	106	Drought Tolerance	7 Very Good
Ear Height (in)	37	Native Insect Tolerance	8 Excellent
Ear Flex	Some	Greensnap	8 Very Good
Ear Length (in)	8	Root Quality	7 Good
Ear Girth	Girthy	Stalk Quality	7 Good
Kernel Rows	16-20	Fall Appearance	8 Very Good
Cob Color	Red	Staygreen	9 Excellent
Husk Cover	Medium	Drydown	6 Above Average
Emergence/Early Vigor	9 Excellent	Testweight	7 Good
