

Nova

86 RM

Recommended Uses: Grain, Silage, Earlage, High-Moisture Corn

Management Recommendations

Planting	A fast-emerging hybrid good for cold tough soils. Ear size does flex. Plant at standard populations but will also do very well at lower populations. Can be planted in wide and narrow rows due to strong ear flex tendencies. Excellent for no-till.
Early Season	Will set a good root system. Canopies early. Goes deep for moisture.
Mid-Season	Flowers early for maturity. Longer grain-filling period. Low ear placement. Good plant health, but watch for leaf disease when taken south of maturity zone. May require foliar fungicide when planted in fuller-season areas.
Late Season	Taller hybrid with wide, semi-upright leaves. Has shown tolerance to ECB. Very showy in the fall!
Harvest	Stands well. White cob. Above average test weight. Slower to dry down. Grain has above average oil and protein for increased feed value. Excellent choice for high-moisture grain.

Placement Recommendations

Clay Soils	7 Good
Loamy Soils	8 Very Good
Sandy Soils	8 Very Good
Poorly Drained	8 Very Good
Dryland Performance	8 Very Good
Irrigated Performance	7 Good
Corn after Corn	9 Excellent
Late Planting	6 Above Average
High Population	5 Average
Low Population	7 Good
Foliar Fungicide	7 Rarely Needed
NCLB	7 Good
Gray Leaf Spot	7 Good
Common Rust	8 Very Good
Goss's Wilt	8 Very Good
Anthracnose Stalk Rot	8 Very Good
Tar Spot	Data Not Available

Nova is a white cob early hybrid that brings excellent nutrition for livestock feeding.

Characteristics

Flowering for Maturity	Early	Cold Tolerance	8 Very Good
Grainfill Period	Long	Heat Tolerance	8 Very Good
Plant Height (in)	101	Drought Tolerance	8 Excellent
Ear Height (in)	38	Native Insect Tolerance	7 Very Good
Ear Flex	Some	Greensnap	8 Very Good
Ear Length (in)	8	Root Quality	7 Good
Ear Girth	Girthy	Stalk Quality	8 Very Good
Kernel Rows	18-20	Fall Appearance	9 Excellent
Cob Color	White	Staygreen	9 Excellent
Husk Cover	Medium	Drydown	6 Above Average
Emergence/Early Vigor	9 Excellent	Testweight	9 Excellent
